PROFESSIONAL PROFILE

Video editor with experience in university productions, documentaries, event films and social content. Videography and Editing Pillar Head of the Vividra Media Unit, the official student media unit at the University of Vocational Technology (UOVT), working as an editor and colourist for the unit. Handles post-production from footage ingest and multi-camera synchronization to editing, basic colour correction and grading, sound finishing and final delivery using Premiere Pro, DaVinci Resolve and After Effects. B.Tech undergraduate at UOVT in Multimedia and Web Technology, with additional experience in React, Flutter and AI-assisted workflows.

EXPERIENCE

Videography & Editing Pillar Head – Vividra Media Unit **2024 – Present**
Official Student Media, University of Vocational Technology (UOVT), Sri Lanka

- Lead videography, editing and post-production for UOVT student media, studio launches and ceremonial events, as an official editor and colourist for the unit.
- Coordinate multi-camera footage ingest, audio synchronization and editing timelines with student videographers and technical operators.
- Implement proxy workflows in Premiere Pro and DaVinci Resolve, reducing project turnaround time by 40%.
- Apply basic colour correction and grading to showcase productions to keep a consistent look across shots and cameras.

Freelance Video Editor & Multimedia Creator **2024 – Present**
Independent Practice | Remote & On-Location

- Produce documentary edits, commercial videos and social content for creators, brands and academic faculties.
- Edit Instagram Reels, TikTok videos and YouTube Shorts with rhythmic pacing, sound design and subtitle typography.
- Apply basic colour correction in DaVinci Resolve to suit brand identities and project briefs.
- Build and maintain a multilingual React portfolio showcasing video editing work.

CORE CREATIVE SKILLS

Editing: DaVinci Resolve Studio, Adobe Premiere Pro, CapCut; narrative editing, multi-camera editing, documentaries, event highlights and short-form content.

Colour grading (basic): Basic colour correction and grading in DaVinci Resolve, including primary corrections and simple shot matching for Log and RAW footage; still developing colour grading skills.

Motion & audio: After Effects, Fusion, kinetic typography, lower thirds, titles, compositing, Fairlight, Adobe Audition, dialogue restoration and audio mixing.

Production: Sony A6400, gimbal setup, studio lighting and field audio recording.

EDUCATION

B.Tech in Multimedia and Web Technology **2023 – Present**
University of Vocational Technology (UOVT), Sri Lanka | Undergraduate

Focus areas: video editing, basic colour grading, cinematic storytelling, web and mobile application development, and AI/ML workflows.

Selected Work & Technical Expertise

SELECTED FILM & VIDEO PROJECTS

HD & Broadcast Studio Opening – Behind the Scenes (2026) View project
Lead Editor | Adobe Premiere Pro

Edited a behind-the-scenes documentary of the UOVT studio launch, including multi-angle footage logging, interview audio cleanup and narrative pacing.

Freshers 2026 – Official Aftermovie View project
Editor / Colorist | Premiere Pro, DaVinci Resolve

Created an 8+ minute cinematic event film covering performances and crowd moments, with beat-synchronized edits, basic colour correction and audio finishing.

Freshers 2026 – Theme Reveal View project
Editor / Colorist | Premiere Pro, DaVinci Resolve

Developed a suspense-driven theme teaser combining basic colour grading, kinetic sound design and motion typography.

Siythra – Educational Lecture & Session (2026) View project
Lead Editor | Premiere Pro, After Effects

Edited educational media for the Department of Multimedia & Web Technology, integrating lower thirds, synchronized screen captures and balanced dialogue.

Hanthana Batch Trip – Reel Video (2026) View project
Lead Editor | Adobe Premiere Pro

Assembled a reel-type travel video featuring landscape cinematography, natural soundscapes and narrative moments from Sri Lanka's central highlands.

SOFTWARE & DIGITAL PROJECTS

Personal Portfolio & Showcase View portfolio
React 19, Vite, Framer Motion, CSS, react-i18next

Developed a cinematic portfolio with interactive video playback, a RAW-versus-graded comparison slider, English/Sinhala/Tamil localization and keyboard navigation.

Portfolio: https://supun-dev-portfolio-lilac.vercel.app/

Mobile & AI Applications
Flutter, Dart, Firebase, Teachable Machine, TensorFlow Lite

Developed cross-platform apps with Firebase Authentication and Cloud Firestore. Trained lightweight vision models and integrated on-device inference using TensorFlow Lite.

SOFTWARE PROFICIENCY

Adobe Premiere Pro	Advanced
CapCut	Advanced
DaVinci Resolve - Editing	Intermediate
Adobe After Effects	Intermediate
DaVinci Resolve - Colour grading	Basic

TECHNICAL SKILLS

Web: React, Vite, JavaScript (ES6+), HTML5, CSS3, Framer Motion, multilingual UI.

Mobile & integration: Flutter, Dart, Firebase, REST APIs, Flutter Version Management.

AI workflows: Gemini Imagen 3, prompt engineering, dataset curation, class balancing, Teachable Machine and TensorFlow Lite.

Development tools: Git, GitHub, GitHub Actions and Vercel.

LANGUAGES

Sinhala: Native

English: Professional working proficiency
